Assembly, layout and finishing

We start by baking the almond joconde. After baking we cut out rounds of 14 cm. The praline crunch is spread over it. Then prepare the pear compote, which is placed on top. This is followed by the caramel fleur mix and the pinenut & caramel frosting. Freeze this interior. Start preparing the mousse, pour it into the desired shape and place the interior in it. Freeze this and finish it with the chocolate spray mix after freezing.

Enjoy this exciting recipe.
